EXPERIENCE

NoVegRapix — Android Developer Intern

Mar 2026 - Apr 2026 | Remote

- Worked on designing and developing Android app UI using XML and Kotlin.
- Built responsive and user-friendly layouts following Material Design principles.
- Improved app screens, layouts, and overall user experience.
- Created reusable UI components and maintained clean code structure.

PROJECTS

WTMP - Who Touched My Phone

[GitHub](#)

- Built an Android security app that detects unauthorized access attempts and captures intruder photos using **CameraX** with the front camera.
- Implemented an **AccessibilityService-based app lock system** that monitors foreground apps and shows a secure full-screen PIN overlay for protected applications.
- Developed secure PIN authentication with **SHA-256 hashing** and local persistence using **Room Database** and repository/ViewModel architecture.
- Created an intrusion logging system that stores captured image URI, app name, package name, and timestamp, with dashboard stats for total, weekly, monthly, and latest intrusion activity.
- Designed a modern **Jetpack Compose UI** with onboarding, permission setup, app selection, lock screen, logs, settings, and analytics screens for a complete user experience.

Playlist Progress

[GitHub](#) | [Play Store](#)

- Developed a Kotlin-based Android productivity app using Jetpack Compose and **MVVM** architecture to help users track progress across YouTube playlists.
- Integrated the **YouTube Data API** with **Retrofit** to fetch playlist videos dynamically from a pasted playlist link, including support for paginated playlist loading.
- Implemented offline persistence using **Room Database**, allowing users to save video completion status, pinned videos, revision marks, notes, and cached playlist data.
- Built interactive learning features such as mark as completed, pin videos, add personal notes, revise later, sorting filters, and progress statistics to improve user learning workflow.
- Added a complete app experience with **Firebase authentication**, **Google Sign-In**, profile management, local reminders, splash screen, bottom navigation, and a modern Jetpack Compose UI.

TECHNICAL SKILLS

- **Android Development:** Kotlin, Android SDK, Jetpack Compose, Material 3, XML Layouts, Android Studio.
- **Architecture & Design:** MVVM, Repository Pattern, State Management, Reactive UI Development, Offline-First Development.
- **Data & Storage:** Room Database, SharedPreferences, Local Storage, Data Persistence, MediaStore.
- **Networking:** Retrofit, REST APIs, JSON Parsing, YouTube Data API Integration.
- **Concurrency:** Kotlin Coroutines, StateFlow, Foreground Services.
- **System-Level Features:** Accessibility Services, Overlay Windows, Background Services, Runtime Permission Handling.
- **Camera & Media:** CameraX, Image Capture, Media Management.

EDUCATION

Matrusri Engineering College

B. Tech Computer Science | CGPA: 8.05 | Timeline: 2023 - 2027
